SONG FOR TODAY - Jerry Bourgeois, Song Leader

OVER THE RAINBOW

Somewhere over the rainbow, way up high. There's a land
that I heard of, once in a lullaby.

Somewhere over the rainbow, skies are blue, and the dreams
that you dare to, dream, really do come true.

Someday I'll wish upon a star, and wake up where the clouds
are far, behind me.

Where troubles melt like lemon drops, away above the
chimney tops.

That's where you'll find me, somewhere over the rainbow,
blue birds fly.

Birds fly over the rainbow, why then, oh why, can't I?

VIC'S VIBES by Vic Maria

With the assistance of the data provided by the U.N. demographic data, a division of the United Nations, imagine, if you will, the following:

"If we could at this very moment shrink the earth's population to a village with a population of exactly 100, and all existing human ratios remained the same, it would look like this:

- There would be 57 Asians, 21 Europeans, 14 North, Central and South Americans and 8 Africans.
- 70 of the 100 would be non-white, 30 would be white.
- 70 of the 100 would be non-Christian, 30 Christian.
- 50% of the entire village's wealth would be in the hands of 6 people, and all 6 would be citizens of the United States.
- 70 would be unable to read.
- 50 would suffer from malnutrition.
- 80 would live in substandard housing
- Only 1 would have a university education."

One wonders, if I lived in this small village, how might other's environmental and development concerns affect me as well?

LETTER FROM THE PRESIDENT by Donnie Johnson

I am honored to have had the opportunity to serve as the first woman president of Chapter 2010 in District 5890. Among the wide number of clubs in District 5890, the Space Center Rotary Club is exemplary due to the diversity of its programs and the dedication of its members. This year the Space Center Rotary Club reached new horizons by focusing its attention on both the regional and international community. All four areas of Rotary service served as a pillar for this Club to build a network of fellowship and effective communications. As a result of the hard work and diligence exemplified throughout the year, the Space Center Rotary Club has set a new standard of excellence. As a group, we set aside our difference in the lives of so many people.

Thank you members of Space Center Rotary for your hard work and for placing your faith in me and giving me the opportunity to serve you as the leader of this most wonderful #1 club in the world. And for helping us be club of the year for District 5890.
