

Untitled

By the way, we have had a Rotaract club at U.H.C.L. before – I started it. It was mentioned a month ago that Rotaract was being started for the first time at U.H. Not so. This would have been in the late 80's, but it was there for 4-5 years at least. We got a U.H. professor in our club back then and I handed it off to him. I recall one of the projects was a fashion show in the common area for graduating seniors as to what to wear to an interview. The students went to several stores and clothiers and got the clothing loaned and they were the models. I attended it and it was well received and well attended. They also helped at the Shrimporee like the Interact club did.
