

YULETIDE HOPE

Vic Maria and Donnie Johnson visited HOPE VILLAGE (a facility for the mentally retarded) recently. Vic has done many wonderful things on his own for these fine people and truly exemplifying "service above self" and the real meaning of Rotary.

The women's facility was in need of a new toilet. Vic not only took it upon himself to procure the toilet, he also installed it for them (hook'ed up the seat and all.)

Making ceramics is one of the favorite pastimes of the residents of HOPE VILLAGE. Their 'works of art' will be on display and available for sale before and after our Monday meetings during the month of December. All items are very reasonably priced (most at \$5 and \$10) We encourage you all to support this fine cause.
