Dear David,

Back in 1976, the first "Couples Exchange" was held in District 5890, when 109 English Rotarians and their spouses came our way for three weeks. Then, in 1977, we returned the favor, and took 99 folks from our District to District 1200, in beautiful Southwest England for a like period of time.

We have decided to have a reunion of that experience. From March 15-29, 1995, we will host a maximum of 25 couples (50 persons). Then, from September 6-20, 1995, we will descend on them with our entourage of 50. The only prerequisite is that the participants must have been involved in either hosting or visiting back in 1976-77.

We have good records of both hosts and visitors, but have no way of knowing for sure which ones might no longer be with us, or of their age/physical condition which might preclude their participation this go-round.

Would you please make your club members aware of our plans, and have them get in touch with me to express their interest? Sorry to put this burden on you, but I know of no other way to handle this matter.

You may reach me at my office on Lockwood with the telephone number and address listed below. Also, you may reach me at home on (713) 482-0084, or my home address of 409 Carriage Creek Lane, Friendswood, Texas 77546.

May I count on hearing from you, or someone in your club?

Yours in Rotary,

  
Paul W. Jury, P.D.G.  
R.I. District 5890, 1980-81

Dear Paul,

Thank you for your letter of August 10, 1994 requesting the Space Center Rotary Club's support in planning the Rotary International "Couples Exchange" reunion planned for March and September 1995.

The task of locating such members of the Space Center Rotary Club was assigned to Mr. James C. Shows, Chairman of the International Friendship Exchange Committee.

A survey of the Space Center Rotary Club has been conducted without finding any current members, so far, that meet your prerequisite of being a participant, involved in either hosting or visiting back in 1976-77. However, in your letter, you indicated that you had good records of both hosts and visitors of the 1976-77 Couples Exchange. We would certainly appreciate a copy to assist in our search. To expedite the transmittal of information, the records can be sent by facsimile to James C. Shows, facsimile number 713-532-1443.

In the event that Space Center Rotary is unable to provide any qualified members, perhaps we may have members that would be interested in participating in your 1995 Couples Exchange reunion, if that would be acceptable.

Mr. Shows can be reached at his office, telephone number 713 326-1012 or in the evenings at his home, telephone number 713 532-1684. His home address is listed above.

Respectfully Yours,

David Taylor  
President, 1994-95  
Space Center Rotary Club
