Millions of people have been helped by
hyperbaric oxygen therapy. In a single year (2002), 10,000
patients have benefited from the therapy.
The therapy is used to treat a wide variety of
conditions, including: decompression sickness,
gas embolism, carbon monoxide poisoning,
wound healing, and many others. The therapy
is a safe and effective treatment for many
conditions. The therapy is used in a variety of
settings, including hospitals, clinics, and
research facilities. The therapy is a valuable
tool for the treatment of many conditions.
