Vissett,

Back in the spring at PETS during our Assistant District Governor general assembly I stood before the group and asked President- Elect Glenn Estes to visit our club during his year as President of Rotary International.

Considering his relationship to one of our RNASA recipients, he was very agreeable, depending on his schedule. After D'Lisa became our District Governor, the official invitation went out from her...(protocol).

President Glenn and I have corresponded and we had hoped that August would have worked, considering our 40th anniversary, but his schedule is incredible....! am so pleased that this has worked....even at a later date.

Who would have ever thought during their first year as a Rotarian that they would meet the President of R.I., let alone dine with and entertain him.....Did you??? You and I have done so with a couple of them, and we now have the opportunity to do so with our membership and fellow Rotarians.....It looks like January 24th may be the date ...

Now for the planning..... I have a folder that I have kept, just in case this event really came to lightLet me know when is a good time for you and me to talk about his visit.....space, reservations, head table..news media coverage..(more than just the local paper)...and so on Is the Holiday Inn workable....(do we want to see if Space Center Houston is in between exhibits....or .Gilruth.) tables/types..... I have a folder that I have maintained since March on this event

Also..I would like to present President Glenn with a bench in his name...(I have reserved two from Earl)..I had entertained the idea of his dedicating our Children's Reading room at the library, however he may not be up to this much activityconsidering his schedule.etc The bench project is one that I made as our Centennial project during my year as president.....

So.....are you as excited as I am?

Yours in Rotary service,
Laura
