Rotary Club of Space Center
PO Box 58862
Houston, Texas 77258

Dear Mr. Fox:

On behalf of the Armand Bayou Nature Center (ABNC) staff, volunteers and visitors, I thank you for your generous donation of \$3,500 towards the preservation of our historic farmhouse. The leveling was completed Monday, December 19.

ABNC is a 2,500-acre nature preserve in the highly urbanized area between NASA/Johnson Space Center and the Bayport Industrial District. The preserve is literally "Nature at your Doorstep".

ABNC strives to "Reconnect People with Nature" Our mission is two-fold:

Preservation - Protect and restore ABNC's native coastal tallgrass prairie, coastal flatwood forest, wetlands and natural bayou, i.e. be a "Living Museum", and

Education - Be an environmental and Texas historical educational destination.

ABNC is a private not-for-profit 501(c)3 preservation and educational institution. As such, ABNC receives no automatic funding from any source. ABNC relies on generous donations from supporters such as Space Center Rotary to implement its mission.

Thank you again for your support of ABNC.

Sincerely,

Candy Donahue
Executive Director
