

Rotary Year 2007-2008 Report

FUND RAISING

June 23, 2008

Mike Cornett, Director

## FUNDRAISING:

Shrimporee – about \$70M

Springoree – about \$31M

## GRANTS:

- We had a partnership with the Tarija Club for drilling a water well in Concepcion....and this grant was also partnered with Engineers Without Walls.
- We also partnered with the Conchabamba Club to build an Irrigation Dam in the Village of Aramasi.

The real story of this project was the coalition to pull this off as we partnered with Friendswood, Humble, West University and Wintertur Club of Switzerland.

In addition, there were very considerable contributions by Individual Rotarians for this project; \$7M by SCR members and \$3M by West University members.

Also, the Friendswood District provided \$5M in district matching funds AND our district provided matching funds as well.

- Our Club also participated in a partnership with the Armand Bayou Nature Center and the United Way to build a Handicap Trail at the Armand Bayou Nature Center. There were several Rotarians who dedicated their time over a period of several months to make this happen.
