

### Increase Club Pride in our Members:

We created a theme for each meeting day of the month. The first meeting is Bring a Guest Day. This is intended to give our members a target day to bring a prospective new member, and to "show off "what our club is doing. We have seen an increase in the number of guests this year.

The second meeting of the month is Wear Your Rotary Shirt & Pin Day. We hope members will wear their pins daily, however this again targets a day for our members to think about wearing the Rotary logo and sharing this in their work place and community. We have seen more members wearing the logo pins this year than any other year.

The third meeting of the month is Paul Harris Fellow / The Rotary Foundation day. Our intention here is to highlight on a regular basis the PHF/TRF so that new and old members are more aware of these programs and what they do for Rotary. We feel this has had a positive influence on the membership and helped establish a better foundation of understanding. Including one brand new member asking after a meeting how to become a PHF. He then wrote a \$1,000.00 check on the spot!

The forth meeting of the month is Floyd Boze Fellow / The Space Center Rotary Endowment Foundation Day, This Is our Club's version of PHF/TRF, and we do this for the same reasons as above. We have seen a nice increase in new FBF this year, and we feel our plan has contributed to this increase.

The fifth meeting of the month is Bring A Loved One Day. This is just to be sure we are engaging our families in our daily Rotary lives. We only had 2 of these this year, but they are valued days.
