

Marilyn,

Thank you for your hard work in this very worthy project. I came to watch today, but was happy to help behind the curtain. I can't explain the joy the parents had in their eyes as the kind comments were made about their children. Many were teary eyed behind the curtain. The program helps many people in beneficial ways and is just another reason to be proud to be a Rotarian.

Thanks again,
Mike (Cornett)

Marilyn,

What a great experience, sorry I had to leave early but I am impressed with what I saw and how much the children enjoyed the program as well as their parents and teachers.

Marilyn you , your husband and all Rotarians that participated today performed the program in such a professional manner, what great role models you all are for me and others in Rotary.

Let me know if I can help you out in the future.

(Mike Porterfield)

Marilyn,
I get choked up every month. Like Mike, I see the expression on the parents face and that always makes me realize how special this program is for the youth and parents. One of them told me how much it meant to her daughter and then started crying. This is why I joined Rotary - making a difference in the community. Thank you so much for getting this program started. It was so awesome to be a part of this experience from a personal perspective. Life is so short and it has been such a meaningful experience to give back to the next generation. It is always what we give that makes a life. You and Wayne are an inspiration to all of us and make it a real such an awesome pleasure to be a part of this club. Looking forward to next month and also working with their student council in planning the service project.

John Branch
