

Scott,

I would like to nominate "The Independence Village" for a Random Act of Kindness award. The Village's mission is to provide safe, happy, and affordable housing for mentally and physically challenged adults. It is a 501(c)(3) corporation.

The Village was formed several years ago by aging parents of challenged adult children that needed supervision that they could no longer be assured of providing. The Village was established by 16 families with this mission in mind.

The folks that live in Village have part time jobs, volunteer in community, and support one another like all good families. Like all such facilities there is need for financial resources to provide the tenants with activities, entertainment, transportation, and other everyday needs that all humans deserve. A donation from Space Center Rotary would afford the residents with a chance to enjoy the things we all take for granted. The Village is located at 905 Highway 3 North, Texas City 77591. The director of the Village is Judy Slocumb, a loving and caring person who truly loves her Village family members. Her contact number is 409-9235-4335.

Your consideration would be greatly appreciated by me and the great folks at the Village.

Gary Johnson
