

I would like to nominate Ted who is a 65 year old homeless white male in Bacliff, Texas He is a disabled vet He has no home. He goes from one place to another. A business owner in Bacliff allows him to sleep at his office. Carol Smith picks him up on Saturday and allows him to stay with her family on Sat., Sun., and Wednesday for church. This situation is a mess. I need some on how to help him and his situation. Any ideas. I provide therapy and food on my end. I have Carol Smith who will let him stay on her property if we can get him a little trailer. I am searching for one now. In addition, he needs a job. He can't seem to keep a job because he has a temper. The problem is he is MR but not enough to qualify for any help. He was abused as a child so stern voices make him nervous. He is a sweet Christian man who is troubled. He is homeless and stays in any place he can find; like airports, stores, etc. He does not do any drugs. He is just socially delayed in many ways. An example, this week a car was on fire in Bacliff, he runs into the store and gets the fire extinguisher without permission. He uses it and then puts it back on the shelf. The stores won't let him in. It is a mess. He needs clothes, shelter, money, job and medical and dental care. Any suggestions? He does understand his current situation. All his family is dead.
