Day of Love

TO BENEFIT *Melissa Dimicelli*

In November 2014, Melissa Dimicelli was diagnosed with Stage 4 Metastatic Breast to Lung Cancer. It was like a bad dream happening all over again, as she had been diagnosed with Breast Cancer in November of 2011. However, she was able to overcome the disease. Now she's undergoing chemotherapy at M.D. Anderson in Houston, Texas for this new cancer. The treatment has not been kind to her. She has not been able to work full-time because of the debilitating side-effects of her treatment, and the frequent, extended stays in the hospital.

X The purpose of this fundraiser is to raise money to help with her medical bills, and the various other expenses she faces during and after the current fight for her life.

Melissa is a single mother of two beautiful children: Jake, age 12, and Violet, age 9. Her daughter, Violet, was born with a rare set of birth-defects, known as VACTRL Association. She requires far more care than your average 9 year old. While battling this disease and all of its side-effects, Melissa continues to meet the unique needs of her children.

Please join us in helping Melissa and her family, who has already been through so much. We want thank all who have donated to make this possible!
