

OK Scott, here is some information. Her house has been flooded with 4 inches of water everywhere. The house apparently has also been unstabilized and will have to have piers all around. She is wheelchair bound. She is an ex teacher, and for the past five years has been the leader of "Friends Helping Friends" of which I am also a member of the group. We help those who have just lost a loved one to cope with their tragedy. She is widowed and lives alone.

Here are the particulars you asked for: Marlene Freitag
