

I have scanned the receipt for the monitors I bought for Centro Pastoral Social Cristo Obrero, AKA as the women's center of Ezequiel Montes. Please forward that to the treasurer of Space Center Rotary. The Rotary Club of Greenway - River Oaks delivered 10 computers and monitors and several printers to Rio Bravo, Mexico on September 22nd. They will be shipped to the Rotary Club of Ezequiel Montes, Queretaro, Mexico where they will be given to the women's center. The computers were gathered from Rotarians in District 5890 and were picked up and delivered to Compudopt by the Rotary Club of Greenway - River Oaks. I am not sure how many computers we received, but probably 30 to 40. Compudopt cleaned everything off the hard drives and then refurbished the computers and gave us back 10 for the Women's Center. I also received some printers which were donated also to the women's center. Lastly, Space Center Rotary Club donated \$1,000 to buy monitors for these computers. We were able to buy 8 monitors with this money and they were delivered along with the computers and printers.

Rotarians, Joe Teas, Alex Gabriles, Paul Ralph and I drove the computers to Rio Bravo from Houston on September 22nd. I would put the value of the computers, monitors and printers to be \$4,000. Thanks for everyone's help in this endeavor and Having been to Ezequiel Montes twice in the past couple of years. I know these computers will make a big difference in the lives of the women served by El Centro Pastrol Social Cristo Obrero in Ezequiel Montes.

I would like to thank all those that helped in this project, especially Joe Teas, Veronica Harford and Space Center Rotary. All the best!

Yours in Rotary,

Jack
