

This us who I nominate, Sandra Chronis

She is a cancer survivor; her son had a major four wheeler accident and cannot work. His one side of the brain does not work but the right side the creative side works and he's able to now play seven instruments skillfully and he writes music and sings like an angel, but they have no income they need a random act of kindness. Anything thing would be a big help. They cannot afford their utilities so she's had no air-conditioning they have no cable and they live day today by say they have lots of faith in the Lord, that they would really be appreciative to anything we can do!

Thank you!

Laura Godwin
