

Scott

My idea for a RAK is to give \$1,000 to a charity that just started. It is called Blessed Bags and a friend of mine from high school started doing this and I think it is great. She collects money to purchase "chemo comfort bags" and then collects stuff to fill the bags and hand delivers them to patients going thru chemo at the hospital. The bag has stuff like lip balm, lotions, warm socks or other things. I thought it would be nice for Rotarians to not only donate to the charity but then help fill the bags and then hand deliver some of them to people at the hospital fighting cancer. Kris Mete is the founder of the charity and will be in town from the 18th-24th and I think it would be super cool to give her the money then if it is approved by the board.

Thanks, David Coney
