CIRCULATION - Stagnant OCT. 24, 1972 PRICE - Hi-ceiling

THINGS TO COME

MONDAY, OCT. 30TH... DISTRICT GOVERNOR GEORGE DeMONTROND will be with us for the annual club assembly. All officers and directors are expected to be present. All Chairmen of Committees should be on hand and all Committee men are urged to attend this all important meeting. (Guess that means about a 100% club attendance, eh what?). President Frank will call the meeting to order about 15 minutes earlier than usual, so everyone should try to come that much earlier in order to finish lunch before 12:15 noon. It will be good having GOV. GEORGE with us, and you can expect a fine program.

MONDAY, NOV. 6TH... OUR UNITED STATES CONGRESSMAN from this district, HON. BOB CASEY, will be our guest speaker. Every member should be on hand and we know you will want to bring a guest along with you - a guest who might qualify for membership!

MONDAY, NOV. 13TH... HARRY HUTCHINS, Vice President of Brown & Root, will be on hand to tell us about the great "HOUSTON CENTER" now under construction for the Texas Eastern Gas & Transmission Company. Don't miss this one and bring a guest!!!!

MONDAY, NOV. 20TH... GEORGE O. JACKSON, Public Relations Manager for Tenneco, Inc., will inform us about Tenneco's joint venture with Westinghouse in the building of one or more nuclear plants. Just what we have been waiting for, so let's turn out in mass and get knowledgeable, ok? Again make every effort to bring a guest!

VOTE VOTE ON NOVEMBER 7TH VOTE VOTE

FRIDAY, NOV. 3RD... GOLF TOURNAMENT & BAR-B-QUE at Glear Lake Country Club. Have you sent in your entry fee to Rex Bailey as yet? MANY TROPHIES - FREE BEER - BEEG DOOR PRIZES! THIS WILL BE A FUN DAY AND FUN EVENING. Y'all come!

WELCOME TO OUR NEWEST ROTARIAN: CHRIS W. KNUDSEN sponsored by Hal Neely. Born in El Paso, Texas, Chris remained in Texas long enough to receive his B.A., B.S. and Chem. Eng. degrees at Rice University and then receiving M.S., Chem. E. and Sc. D. Ch. E. at M.I.T. He is employed by Esso Research & Engineering Company as a Planning Advisor. His wife is Elizabeth and they have four children (Scott, Holly, Elizabeth Anne and Eric) and live at 4019 Highknoll Lane, Seabrook. We welcome Chris into the Club and know he will grease up the Rotary wheel of Space Center Rotary Club.

We all well recall the unfortunate accident suffered by Al Nauman's daughter, Debbie, when she was seriously injured when horse-back riding several months ago. It is good to know Debbie is now at home showing good signs of recovery. Our continued prayers, best wishes and encouragement for Debbie and other members of the Nauman family for her complete recovery and comfort for all. (on the QT send her a card, ok?)

TROUBLE? He wrecked his car, he lost his job, his favorite hunting dog died, and yet he stood fast and took his troubles like a man - blaming his wife in all cases! (The Scroll of West Columbia). One car defect overlooked by Nader is that the nut holding the steering wheel is often too tight! (Scandal Sheet)

OVER

Happy Birthday!

ED SAMFIELD
DON SAILE

OCT. 31
NOV. 2

Easy to cook - another short-cake!

It's high time all Americans remember what Abe Lincoln said:

You cannot bring about prosperity by discouraging thrift.

You cannot strengthen the weak by weakening the strong.

You cannot help little men by tearing down big men.

You cannot help the wage earner by pulling down the wage payer.

You cannot further the brotherhood of man by encouraging class hatred.

You cannot help the poor by destroying the rich.

You cannot establish sound security on borrowed money.

You cannot keep out of trouble by spending more than you earn.

You cannot build character and courage by taking away man's initiative and independence.

You cannot help men permanently by doing for them what they could and should do for themselves.

HERE COME THE AGGIES (Attenshun!)

The proud AGGIE corporal when returning home on weekends always salutes the kitchen refrigerator - it being a General Electric!

Football referee, after tossing coin; "Ok, AGGIE, it's heads - what choice do you wish to make?" Whirling around the AGGIE sharply snapped, "We'll face the TV camera!"

AMERICAN PATRIOT:

One who is devoted to his Country!

The American who heads a family unit, raises his children to understand the meaning of freedom is the right of choice, in where he lives, the church he attends and to get the most from his capability.

He is the American who is always alert to the dangers to his Country from without or from within.

He is the American who works hard to do better on his job, then takes time to be sure men elected to office, regardless of the level - city, county, state or national, will improve the heritage we will leave our children.

That AMERICAN is a real PATRIOT! He supports AMERICA!

The real destroyer of the liberties of the people is he who spreads among them bounties, donations and benefits. (Plutarch) With inflation, as with disease, we need to treat the cause and not just the symptoms! (Freedom talks) Firmness is the only possible road to peace, and strength is the only guarantee that we shall not be attacked! Miracles still happen every day, but they happen only to a person that truly and honestly believes in God, wants beauty on earth beyond his own needs, is deeply concerned about humanity, and is able to say to God, "Thy will be done." (Melvin Munn, Freedom Talk)

Some books are so down-to-earth they should be plowed under! (Anna Herbert)

They're now proposing to change the name of the earth to Polluto! (Stephen Miller)

"I've watched so much football, I've worn out my end zone!" (Bob Hope)

FOR THE WEEKS AHEAD!

Rotary Foundation Week

November 12-18

District Conference

April 6 and 7

Sign on back of truck . . . "This truck stops for all crossroads, railroads, blondes and brunettes. Special caution for redheads this truck will back up for 50 feet!"

(Rotary News, Marshall, Minn)

Just think! You're a day closer to Social Security! (believe it or not)

We all stem from the same family tree: the pair tree!

Let's hope no one ever tries to impose mirth control!

Today's fashion plates are more like a dish of left-over hash!

Airline Captain - "A Soar Head!"

Film starlet - "A Flick chick!"

"I know I'm driving on the wrong side of the road, officer," said the AGGIE, "but the other side is full!"

. . . then there was the AGGIE who ran out of ice cubes and couldn't make any more because he lost the recipe!

or . . . the AGGIE who put iodine on his paycheck because he got a cut in pay!
