PAST PROGRAMS....On January 4th, a large crowd of members and visitors were on hand to help start the New Year off in the right way. JOHN WATSON introduced HERB KUYKENDAHL as our first speaker of the year. HERB gave a very inspirational talk on goals and success and how they could be measured and achieved. He defined 'Success' as a favorable or desired outcome of something attempted and further stressed that each individual needed to set personal goals which he should try to achieve. If you missed this talk, you really missed one of the better motivational talks that has been given to our club. Then on January 11th, HAL NEELY presented an excellent film on the work of the ROTARY FOUNDATION. The film stressed that Rotary was helping to build world understanding through the many opportunities for study abroad, the medical and educational programs that are offered in underdeveloped countries, and other exchange programs to bring about a better understanding of our neighbors. The film really gave an insight into what Rotary is all about and everyone in Rotary should have the opportunity to view this excellent film.
