

Dear Space Center Rotary,
I am so thankful for the partnership that has been built between the rotary and Whitcomb. You have all been a blessing to our school in so many ways. Before spring break (the Thursday before we got out), I reached out to see if there was any help that could be given to a family in desperate need for help to get out of a very unsafe environment. In less than 24 hours you all worked together to be able to provide this family with \$1,000 for a new start. I know the mom was speechless and beyond thankful

Remembering your kindness
with warmth and gratitude.

for the support. This is such an example of what being a rotarian means - service before self. Thank-you from the bottom of my heart for all you do.

Sincerely,

Kristina Digman
